

Christopher Blaine Winslow

Salem, VA • 540-354-2618 • blaine.winslow@gmail.com • GitHub: [github.com/cbwinslow](https://github.com/cbwinslow) • Title: Analyst / Accountant

---

## Professional Summary

Detail-oriented accounting professional and decision-analytics graduate (M.S., VCU) with hands-on treasury and SOX-compliance experience. Proven ability to maintain accurate daily cash positions, perform reconciliations, build forecasting models, and automate reporting with Excel, Access, and SQL. Comfortable translating technical analysis for non-technical stakeholders and improving operational efficiency through automation.

---

## Core Accounting & Analytics Competencies

- Cash management & daily reconciliations • SOX controls & internal audit support
  - Short-term cash forecasting & liquidity planning • Bank & investment operations
  - Financial reporting support (interest, accruals, covenant compliance)
  - Excel (advanced), MS Access, VBA, SQL (intermediate), data validation
  - Process automation & remediation; procedure documentation
  - Communication: stakeholder reports, cross-functional coordination
- 

## Technical Skills

**Accounting Tools:** Excel (PivotTables, Solver), MS Access, bank web portals **Databases / Scripting:** SQL (T-SQL/PL-SQL basics), Python (pandas), VBA **Analytics & Reporting:** JMP, SPSS (basic), financial modeling, scenario analysis **Controls & Compliance:** SOX evidence preparation, internal audit workflows

---

## Professional Experience

### **Premier Inc.** — *Treasury Analyst*

Oct 2016 – Dec 2017 - Performed daily cash reconciliations and verified previous-day balances vs. bank transactions to maintain treasury accuracy.

- Processed wire and ACH payments, ensuring proper authorization and documentation for SOX compliance.
- Maintained and enhanced a rolling 21-week cash flow forecast used for liquidity planning and short-term investment decisions.
- Prepared monthly and quarterly supporting schedules for interest income, accruals, and short-term liabilities included in financial filings.

- As the custodian of online banking credentials for the department, managed access control and prepared materials for internal audit reviews.

**Markel Corporation** — *Associate Treasury Analyst*

Mar 2012 – Dec 2014 - Developed a database-driven solution to automate trade settlement inputs and reporting, reducing manual reconciliation steps and improving data integrity.

- Created queries and reports to extract investment activity, holdings, and settlement status for model parameterization and reporting.
- Participated in capital asset aggregation for economic capital modeling, ensuring accuracy of balance-sheet inputs across legal entities.

**Other Experience**

- Retail & hospitality roles (Good Vibes Shop; The Coffee Pot; The Paper Dragon) — maintained point-of-sale accuracy, inventory controls, cash handling, and daily reconciliation practices transferable to accounting environments.

---

## Education

**Virginia Commonwealth University (VCU)** — M.S., Decision Analytics

Jan 2014 – Jun 2015 • 4.0 GPA

**Radford University** — B.B.A., Finance

May 2011 • GPA 3.63 • Vice President, Student Managed Investment Portfolio Organization (SMIPO)

---

## Certifications & Professional Development

- Passed CFA Level III exam (June 2014)
  - Ongoing: Python for data cleaning & automation; SQL querying; advanced Excel/VBA
- 

## Selected Improvements / Next Steps

1. **Add quantified outcomes** — e.g., time saved from automation, reductions in reconciliation discrepancies, or forecast accuracy improvements.
  2. **Obtain a QuickBooks or similar accounting systems certification** to increase hireability for SME accounting roles.
  3. **Create a one-page portfolio** showing a sample reconciliation workbook, cash forecast model (sanitized), and an automation script (Excel/VBA or Python) — host on GitHub and link to applications.
-

## Notes

This version emphasizes treasury, reconciliation, forecasting, SOX, and automation skills. If you'd like a version targeted to staff accountant roles (AP/AR/general ledger) I can reframe bullets and add AP/AR-focused phrases.
